ON-DEMAND MULTI-SERVICE APP FOR SRI LANKA

Business Proposal & Research Report

1️⃣ Executive Summary

We propose building a **mobile marketplace app** that connects **users who need services** with **verified local service providers** in real time.

The app works like **Uber — but for all types of services**, not just transport.

Users can request:

- A vehicle with driver
- A plumber
- A gardener
- A parcel delivery person
- A handyman
- Or any skilled worker

Nearby verified service providers receive the request and can **accept the job or place a bid**. The platform earns **commission from each completed job**.

2️⃣ The Problem in Sri Lanka

Today, people in Sri Lanka face these issues:

❌ Hard to find reliable service providers quickly
❌ No verification of workers
❌ Price disagreements after work
❌ Most services are found through word-of-mouth or Facebook
❌ No ratings, reviews, or safety assurance

There is no single trusted app that covers all services.

3️⃣ The Solution

A **trusted, real-time, location-based service marketplace**.

✓ Verified service providers
✓ Real-time job matching
✓ Transparent pricing & bidding
✓ Secure payments
✓ Ratings & reviews
✓ Works across all service categories

4️⃣ How the App Works (Step-by-Step)

👤 USER SIDE

1. User logs in
2. Posts a job request
    - Example: “Need a 7-seat van with driver tomorrow 6AM”
    - Example: “Kitchen sink pipe leak repair”
3. Adds:
    - Location
    - Description
    - Images (optional)
    - Preferred price (optional)
4. Nearby providers receive notification
5. Providers send offers or bids
6. User selects best provider
7. Job is completed

8. User pays & rates provider

👷‍♀️ SERVICE PROVIDER SIDE

To join, providers must upload:

✓ National ID
✓ Selfie photo
✓ Skill category selection
✓ Optional certificates

Verification process:

- Face match with ID
- Admin approval
- “Verified” badge given

Provider can:

- Receive job alerts nearby
- Accept jobs instantly
- Send price bids
- Chat with customer
- Track earnings

5️⃣ Service Categories (Full List)

This is a powerful part of your platform — **multi-category services**:

🚚 Transport & Travel

- 3 wheel / car / van hire
- 7-seater vehicles
- Drivers for hire
- Airport transfers

🏠 Home Services

- Plumbing
- Electrical repairs
- Carpentry
- Painting
- AC repair

🌿 Outdoor & Garden

- Grass cutting
- Tree trimming
- Landscaping

🧹 Household Help

- Home cleaning
- Deep cleaning
- Laundry pickup

📦 Delivery & Errands

- Parcel delivery
- Document pickup
- Grocery pickup

🔧 Handyman & Labor

- Furniture assembly
- Mounting shelves
- Small construction help

👩‍💻 Skilled Freelancers

- Graphic design
- Photography
- Videography
- IT support
- Tutors

👵 Personal Care

- Elderly assistance
- Babysitting
- Personal trainers

6️⃣ Pricing & Bidding Model

The app allows **flexible pricing**:

- User can set a fixed price
- Providers can bid different prices
- After seeing work, provider can adjust quote
- User chooses the best offer

💰 Revenue Model

Platform earns by:

- **Commission per job** (10–20%)
- Featured providers pay for higher visibility
- Future subscription plans

7️⃣ Why This App Will Succeed

Feature	Traditional Method	This App
Verified workers	❌	✅
Instant availability	❌	✅
Price comparison	❌	✅
Ratings & reviews	❌	✅
Multiple services in one app	❌	✅

8️⃣ Benefits to the People

👥 For Users

✓ Save time finding services
✓ Safe & verified workers
✓ Transparent pricing

✓ Easy booking
✓ Emergency help anytime

👷 For Service Providers

✓ More job opportunities
✓ Extra income
✓ No marketing cost
✓ Flexible work schedule
✓ Build reputation with ratings

9️⃣ Safety & Trust Features

🔒 ID verification
⭐ Ratings & reviews
📍 GPS tracking for transport jobs
📞 Emergency contact option
🛡 Dispute & support system

🔟 Technology Overview

- Mobile Apps: Android & iOS
- Backend: Cloud-based scalable system
- Real-time notifications
- Secure payment integration
- AI-based job matching

1️⃣ 1️⃣ Future Expansion Ideas

🚀 Subscription services (weekly cleaning, monthly gardening)
🚀 AI suggested pricing
🚀 Corporate accounts
🚀 Service insurance options
🚀 Multi-language support (Sinhala / Tamil / English)

1️⃣ 2️⃣ Rollout Plan

Phase 1 – Colombo & suburbs
Phase 2 – Major cities
Phase 3 – Island-wide expansion

1️⃣ 3️⃣ Best App Name Ideas (Catchy & Easy to Market)

Here are **strong brand name options**:

⭐ Top Recommendations

1. **HelpHub** – Simple, clear, memorable
2. **QuickFix** – Perfect for services
3. **ServeMe** – Direct and user-focused
4. **TaskLanka** – Local + service meaning
5. **HandyGo** – Easy, modern, mobile feel
6. **FixNow** – Urgency + action
7. **GoServe** – Service on the go
8. **UrbanHelp** – City-focused services
9. **ServiceBee** – Busy workers helping
10. **LankaHelp** – Trust + local identity

Best Overall Choice: 👉 **HelpHub** (broad, professional, scalable)

1️⃣ 4️⃣ Conclusion

This app can become **Sri Lanka's largest on-demand service marketplace**, bringing structure, trust, and convenience to a currently unorganized sector.

It benefits:
✓ The public
✓ Gig workers
✓ Small businesses
✓ The economy
